RESIDENTIAL SERVICE PLANS

WallaceEnergy

Your local home service experts.

Your home is one of your most valuable assets — so don't trust it to anyone else but us.

Most homeowner's insurance does not cover repairs to heating systems. That's why we have a plan that can help you avoid any unexpected costly expenses. More importantly, our plan protects your home by ensuring that any repairs are done in a timely manner.

We realize that this kind of protection can also be called peace of mind. That's what we really deliver. That's what we're really about.

Helping you protect your heating system.
So you can help protect the investment in your home.

Our Natural Gas Basic Protection Plan

includes:

On-call access to service — 24/7.

Whenever you need us, we're there for you, from the depths of winter to the height of summer — every day, all year! This means you can get repairs done quickly, before they become bigger problems. There are no charges for services covered by this agreement when performed between 8:00am and 5:00pm. If you request service for arrival prior to 8:00am or after 5:00pm, on a federal holiday (day when the post office is closed) or weekend, there will be a diagnostic fee.

Tune-up.

To help keep your energy bills low, you should consider a tune-up. This service is available between March 30th and September 1st at no additional cost. This schedule will allow us to optimize our response to your emergency service needs during the heating season.

Enjoy a 15% discount on regular rates.

To help you save even more, this plan gives you a 15% discount on our regular rates for any repair work not covered by your plan.

Our Natural Gas Elite Protection Plan

includes:

On-call access to service — 24/7.

When you call, we're always there for you, every day, all year! This means you can get repairs done quickly before they become bigger problems. There are no charges for services covered by this agreement.

Free service visits on covered repairs.

To help you keep your system running at peak efficiency, the Elite plan covers service visits for covered repairs (see parts listed).

Tune-up.

To help keep your energy bills low, you should consider a tune-up. This service is available between March 30th and September 1st at no additional cost. This schedule will allow us to optimize our response to your emergency service needs during the heating season.

Enjoy a 15% discount on regular rates.

To help you save even more, this plan gives you a 15% discount on our regular rates for any repair work not covered by your plan.
